

KOBELCO

Performance  Design

SK75SR Offset Boom

- Bucket capacity:
0.11 – 0.35 m³
- Engine power:
53.7 kW/2,100 min⁻¹
- Operating weight:
8,510 – 9,010 kg

Complies with the EU Stage V
exhaust emission regulation

Built for Perfectionists™

SK75SR

Performance

Design

SK75SR Offset Boom of KOBELCO has realised a completely new value by harmonising PERFORMANCE – greater efficiency and productivity with an increased power and speed and DESIGN – operator-based operability and comfort, refusing to accept any compromises.

In pursuit of unique and matchless machines which are unforgettable once you use them, KOBELCO will continue to rise to meet every challenge.

THE ULTIMATE IN SIMPLE AND ELEGANT DESIGN

Our pursuit of functional beauty and aesthetic sense produced a new interior design.

Jog dial

This jog dial integrates multiple functions to realise simple operations. Even with gloved hands, the operator can set various machine conditions without stress.

LED backlights

The switches and dials have LED backlights – they provide a bright, clear view in the dark and set a luxurious mood.

UNFORGETTABLE COMFORT

① Air suspension seat

A GRAMMER* seat is installed as standard equipment, which achieves excellent shock absorption and superior ride comfort.

*GRAMMER is trademark of GRAMMER AG, registered in Germany and other countries.

② Air conditioner blowing from the rear

Air is blown against the operator's waist and the back of their head, offering more comfortable operation.

③ Lever angles allow for comfortable operations

The operator can move the levers horizontally without twisting their wrist, which reduces the fatigue caused by the operations.

④ LED door light

The LED interior light automatically turns on when the door is opened or when the ignition is set to OFF. This ensures easy entry and exit at nighttime.

⑤ Parallel wipers secure a wide field of view

PRESSURE RELEASE

SAFETY ON FULL DISPLAY

Standard 3 Sides Safety Camera System

Our high-resolution, large display shows right, left and rear side cameras together. Multiple display allows the operator to customize viewing needs to enhance operator awareness and jobsite safety.

Large 10-Inch Color Monitor

The easy-to-operate menu screen and recognizable icons assist the operator to select the most important information needed to ensure jobsite safety and machine control.

Dial in the Right Information

Simply turn the jog dial to the right or left to select an operational feature, then press the dial to confirm selection.

EXPERIENCING A COMPETENT PERFORMANCE

Our high-power engine complies with STAGE V emission regulations

Compared to previous models, the engine output is significantly increased, which thereby shortens the digging cycle time remarkably. It attains high performances without reducing the speed even when heavy a load is applied or when travelling on a slope.

Model : YANMAR 4TNV98CT

Engine output

Increased by **27.9%**
(Compared to the SK75SR Offset-3E model)

»»» Digging cycle time

Shortened by **15%**
(Compared to the SK75SR Offset-3E model)

Loaded boom lifting speed

Increased by **38%**
(Compared to the SK75SR Offset-3E model)

Arm digging speed

Increased by **37%**
(Compared to the SK75SR Offset-3E model)

»» Hill-climbing speed

Increased by **26.9%**

(Compared to the SK75SR Offset-3E model)

GREATER MULTI-FUNCTION CAPABILITIES

Attachment mode

The flow-rate modes of the bucket, breaker, nibbler, and rotating grapple are set before delivery, which allows you to start operating immediately. Mode settings for other attachments, such as the tilt rotator, can easily be added or changed.

Performance

ADDED CAPABILITIES SMOOTH OUT ANY ROAD PROJECT

Standard equipment includes an offset boom, and a dozer blade makes swift work of excavation next to walls or of side ditches, as well as refilling.

1,340 mm

Digging width at outer edge of right crawler

1,030 mm

Digging width at outer edge of left crawler

Offset boom with hydraulic lines inside the cylinders to prevent damage

The press-constructed boom is both lightweight and slim for smooth operation. The large offset makes it easy to dig right next to walls.

2,590 mm

Min. working width

Compact working radius is ideal for road work in close quarters

The operator gets the best of both worlds: a roomy cab fitted on a compact upper body. With such a small working radius, the machine is perfect for continuous digging, swinging, and loading operations in tight spaces.

Smooth rotation cuts cycle times during swinging operation

Thanks to powerful swing torque and fast swing speed, digging, swinging, and loading — continuous operation makes any task faster.

NON-STOP OPERATION BY iNDr

iNDr Filter

A high-density mesh filter blocks dust intruding during air intake. This prevents the cooling device and the air cleaner from clogging with dust and maintains their performances. The ridges of the corrugated filter allow the air to pass through, and the grooves collect the dust, which prevents the filter from clogging.

How the filter catches dust

Maintainable on the ground

Portions that require daily maintenance, such as lubrication, have been laid out in easily accessible locations.

Easily removable bonnet

The bonnet can be detached by removing only the bolts, allowing easy access to the inside.

CONVENIENT AND SENSIBLE EQUIPMENT

Engine start password

A password is required when starting the engine for greater security. The initial password must be set at our workshop.

Wiper adjustment function

In addition to the intermittent wiper mode and continuous wiper mode, the one-time wiper mode was added.

Parallel wipers/Roll sun shade

Console mount

The console-integrated seat allows for comfortable operation.

AM/FM Bluetooth® (hands-free) radio

Bluetooth® is a registered trademark of the Bluetooth SIG Inc.

USB port/12 V power outlet

Smartphone holder

You can use the holder with your smartphone connected to the USB port.

Built-in rear camera/right camera

Openable FOPS guard

The openable guard allows for easy maintenance.

Increased clearance between the upper body and the shoes

Remote control fuel drain cock

Engine oil drain cock

Floating dozer (Option)

Floating dozer assists in easier leveling work.

Floating function can be activated by the switch which is integrated into the dozer control lever.

Remote Monitoring for Peace of Mind

KOMEXS (Kobelco Monitoring Excavator System) uses satellite communication and internet to relay data, and therefore can be deployed in areas where other forms of communication are difficult. When a hydraulic excavator is fitted with this system, data on the machine's operation, such as operating hours, location, fuel consumption, and maintenance status can be obtained remotely.

Direct Access to Operational Status

Location Data

Accurate location data can be obtained even from sites where communications are difficult.

Latest location

Location records

Work data

Fuel Consumption Data

Data on fuel consumption and idling times can be used to indicate improvements in fuel consumption.

Work mode	Working Hrs	Total Fuel Consumption
H mode	2.06	24.5 L
S mode	0.00	0.0 L
E mode	169.19	1489.7 L
TOTAL	171.25	1514.2 L

Fuel consumption

Graph of Work Content

The graph shows how working hours divided among different operating categories, including digging, idling, travelling and optional operations.

Work status

Operating Hours

- A comparison of operating times of machines at multiple locations shows which locations are busier and more profitable.
- Operating hours on site can be accurately recorded, for running time calculations needed for rental machines, etc.

Daily report

Maintenance Data and Warning Alerts

Machine Maintenance Data

- Provides maintenance status of separate machines operating at multiple sites.
- Maintenance data is also relayed to KOBELCO service personnel, for more efficient planning of periodic servicing.

Warning Alerts

This system warns an alert if an anomaly is sensed, preventing damage that could result in machine downtime.

Alarm Information Can Be Received through E-mail

Alarm information or maintenance notice can be received through E-mail, using a computer or cell phone.

Daily/Monthly Reports

Operational data downloaded onto a computer helps in formulating daily and monthly reports.

Security System

Engine Start Alarm

The system can be set as an alarm if the machine is operated outside its designated time.

Area Alarm

It can be set as an alarm if the machine is moved out of its designated area to another location.

Specifications

Engine

Model	YANMAR 4TNV98CT
Type	Four-stroke, liquid-cooled, direct injection diesel, turbo charged complies with EU Stage V exhaust emission regulation
No. of cylinders	4
Bore and stroke	98 mm x 110 mm
Displacement	3.318 L
Rated power output	52.3 kW/2,100 min ⁻¹ (ISO 9249: with fan)
	53.7 kW/2,100 min ⁻¹ (ISO 14396: without fan)
Max. torque	293 N·m/1,365 min ⁻¹ (ISO 9249: with fan)
	296 N·m/1,365 min ⁻¹ (ISO 14396: without fan)

Hydraulic system

Pump	
Type	Variable displacement piston pumps + one gear pump
Max. discharge flow	2 x 72.5 L/min 1 x 19 L/min
Relief valve setting	
Boom, arm and bucket	29.4 Mpa
Travel circuit	29.4 Mpa
Swing circuit	24.5 Mpa
Control circuit	5.0 Mpa
Pilot control pump	Gear type
Main control valves	13-spool
Oil cooler	Air cooled type

Swing system

Swing motor	One fixed displacement piston motor
Brake	Hydraulic; locking automatically when the swing control lever is in the neutral position
Parking brake	Wet multiple plate
Swing speed	11.5 min ⁻¹
Tail swing radius	1,380 mm
Swing torque	17 kN·m

Attachments

Backhoe bucket and combination.

Use			Backhoe bucket					
			Standard	Narrow				Wide
Bucket capacity	ISO heaped	m ³	0.28	0.11	0.14	0.18	0.22	0.35
	Struck	m ³	0.21	0.09	0.12	0.14	0.18	0.26
Opening width	With side cutter	mm	750	-	480	550	640	870
	Without side cutter	mm	680	400	410	480	570	800
No. of teeth			4	3	3	3	4	4
Bucket weight		kg	210	150	170	180	200	230
Combination	1.71 m arm		⊙	○	○	○	○	△
	2.13 m arm		△	○	○	○	⊙	×

⊙ Standard ○ Recommended △ Loading only × Not recommended

Travel system

Travel motors	Variable displacement piston, two-speed motors
Travel brakes	Hydraulic brake
Parking brakes	Wet multiple plate
Travel shoes	39 each side
Travel speed	5.0/2.7 km/h
Drawbar pulling force	76.9 kN (ISO 7464)
Gradeability	58% {30°}

Cab & control

Cab	
All-weather, sound-suppressed steel cab mounted on the silicon-sealed viscous mounts and equipped with a heavy, insulated floor mat	
Control	
Two hand levers and two foot pedals for travel	
Two hand levers for excavating and swing	
Electric rotary-type engine throttle	
Noise levels	
External	98 dB(A)
Operator	73 dB(A)

Boom, arm & bucket

Boom cylinders	115 mm x 944 mm
Arm cylinder	105 mm x 707 mm
Bucket cylinder	85 mm x 735 mm
Offset cylinder	100 mm x 564 mm

Dozer blade

Dozer cylinder	135 mm x 129 mm
Dimension	2,300 mm {for 450 mm shoe} (width) x 460 mm (height)*
Working range	360 mm (up) x 250 mm (down)

*Dozer width is changed according to the shoe width difference.

Refilling capacities & lubrications

Fuel tank	120 L
Cooling system	12.8 L
Engine oil	11.8 L
Travel reduction gear	2 x 1.3 L
Swing reduction gear	1.5 L
Hydraulic oil tank	44 L tank oil level
	84 L hydraulic system

Notes:

1. Do not attempt to lift or hold any load that is greater than these lift capacities at their specified lift point radius and heights. Weight of all accessories must be deducted from the above lift capacities.
2. Lift capacities are based on machine standing on level, firm, and uniform ground. User must make allowance for job conditions such as soft or uneven ground, out of level conditions, side loads, sudden stopping of loads, hazardous conditions, experience of personnel, etc.
3. Arm top defined as lift point.
4. The above lift capacities are in compliance with ISO 10567. They do not exceed 87% of hydraulic lift capacity or 75% of tipping load. Lift capacities marked with an asterisk(*) are limited by hydraulic capacity rather than tipping load.
5. Operator should be fully acquainted with the Operator's and Maintenance Instructions before operating this machine. Rules for safe operation of equipment should be adhered to at all times.
6. Lift capacities apply to only machine as originally manufactured and normally equipped by KOBELCO CONSTRUCTION MACHINERY CO., LTD.

STANDARD EQUIPMENT

ENGINE

- YANMAR 4TNV98CT diesel engine with turbocharger and intercooler, EU Stage V compliant
- Auto Idle Stop
- Automatic engine deceleration
- Batteries (2 x 12 V - 72 Ah)
- Starting motor (24 V - 3.5 kW), 50 amp alternator
- Engine oil pan drain cock
- Double element air cleaner
- Refuelling pump

CONTROL

- Working mode selector (H-mode, S-mode and ECO-mode)
- Boom, arm safety valves and overload alarm

SWING SYSTEM & TRAVEL SYSTEM

- Swing rebound prevention system
- Straight propel system
- Two-speed travel with automatic shift down
- Sealed & lubricated track links
- 450 mm track shoes
- Dozer blade
- Grease-type track adjusters
- Automatic swing brake
- Lower Frame Guard

MIRRORS, LIGHTS & CAMERAS

- Rear view mirror, rear view camera and right side view camera
- Three front working lights (LED)

CAB & CONTROL

- Two control levers, pilot-operated
- Horn, electric
- Integrated left-right slide-type control box
- LED door light (interior)
- Coat hook
- Large cup holder
- Detachable two-piece floor mat
- GRAMMER* air suspension seat with heater
- Retractable seatbelt
- Headrest
- Handrails
- Intermittent parallel wiper with double-spray washer
- Skylight
- Openable top guard (ISO 10262: 1998)
- Tinted safety glass
- Pull-type front window and removable lower front window
- Easy-to-read 10-inch LCD SCREEN multi-display monitor
- Emergency escape hammer
- Radio (AUX & USB & Bluetooth®)
- 12 V converter
- Hands-free telephone
- USB port
- Heavier counterweight (+350 kg)
- Automatic air conditioner
The air conditioning system on this machine contains fluorinated greenhouse gas HFC-134a (GWP 1430).
Quantity of gas 0.8 kg (CO₂ equivalent 1.2 t)

OPTIONAL EQUIPMENT

- Various optional arms
- Wide range of shoes
- Front-guard protective structure (may interfere with bucket action)
- Cab top work LED lights (two lights)
- Mechanical suspension seat (Applicable for standard piping)
- Rain visor (may interfere with bucket action)
- Floating dozer
- Low & High flow piping (proportional hand controlled)
- Long Stroke Dozer
- Quick Hitch piping
- Additional counterweight (+300 kg)
- Eagle eye view

Note: Standard and optional equipment may vary. Consult your KOBELCO dealer for specifics.
