

Load Weighing Function

- Weighing is possible while lifting and swinging, greatly improving work efficiency
- Easy calibration after changing bucket
- Combination with Quick Hitch is available

Includes an alarm function to prevent over loading or under loading. Warns the operator with both buzzer and pop-up display on monitor.

The load weighing starts/stops with the grip switch, allowing the operator to carry out weighing without letting go of the lever.

● NOT LEGAL FOR TRADE

This function is not a certified weighing device such as truck scale. This means it cannot be used for business transaction or certification. Please read the operation manual carefully before use and ensure proper operation of the product.

Built for Perfectionists

To Control over loading or under loading, the K-LOAD function will notify you the current load weight!

Easy-to-understand Screen Display

- Tip end load:** Current load in the bucket
- Total load:** Total amount loaded on dump truck so far
- Loading target:** Dump truck loading target
- Number of times loaded:** Display of current number of dump truck loads and target number of loads

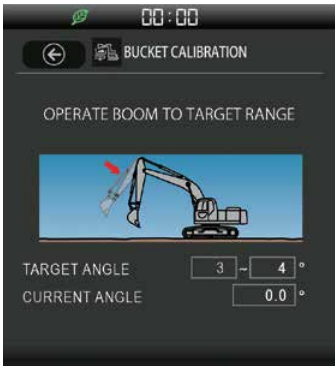

Alarm function

A buzzer and pop-up display will notify you when you are close to your target, allowing you to concentrate on your work without having to constantly look at the screen.

- Target will be exceeded** A buzzer and red box warn the operator that the loading target will be exceeded if the current tip end load is loaded.
- Approaching load target** A buzzer and yellow box alerts the operator when the total load has reached a certain amount.

Easy to use Calibration Will Guide You on The Cluster Screen

Calibration screen

Easy calibration that doesn't require standard weights or other instruments after changing buckets. After the bucket is changed, the on-site adjustment is expected to take around 10 minutes as the attachment/equipment is moved and set according to the calibration system.

Loading Results Can be Checked

Loading results screen

Loading results for the current day and previous day (daily total) can be checked on the screen.
